Barrington High School Secondary Insurance Procedures

- 1. All athletic injuries must be reported to the athletic trainers at the high school. If we are unaware of an injury, a claim can not be filed.**
- 2. If an injury happens while at an away event, that sports coach will have to fill out the claim form.**
- 3. The injured athlete’s primary insurance must pay first in order for the school’s secondary insurance to pay. In other words, follow your insurance companies normal procedures. If you have an HMO, you must go through your primary care physician and if you have an PPO you are encouraged to stay in-network.**
- 4. Claim forms will be sent to the district office every Monday. Copies of the claim forms will be sent to the athletic directors office and the nursing office.**
- 5. After the injury has occurred and the claim form has been generated by the athletic training staff, all communications and procedures will be handled by Toni Eaton, in the district office. Her phone number is (847) 842-3551.**
